Search all available products by name or item number

Browse products from past orders

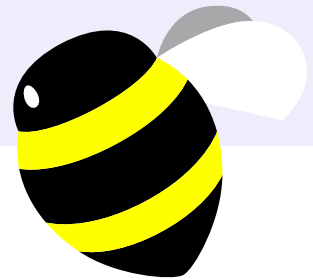

Choose quantities by unit or case and add to cart
**Quantity recommendations may be available*

View all items from past 90-day orders

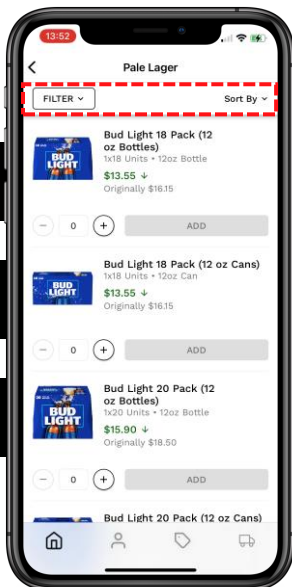

View items by brand, product type, or style

See all deals and promotions in one place

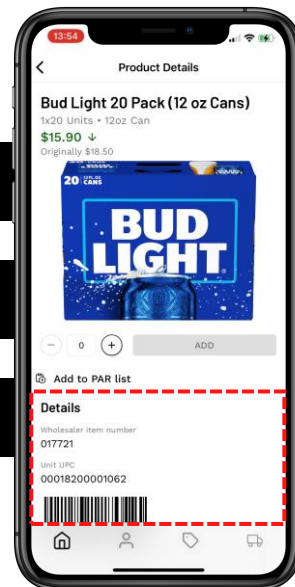

Review Product Details

Easily navigate the BEES catalog using filters to view product details

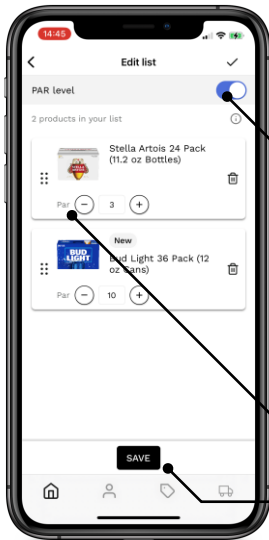

Filter and Sort Products by Brand, Container Type, ABV %, Promotions, In-Stock availability, A-Z and many more!

View Product Details including UPC, ABV %, Style, Product Type and Description

Create your BEES Shopping List with PAR List

BEES offers the ability to save a list of product quantities and place orders based on your inventory

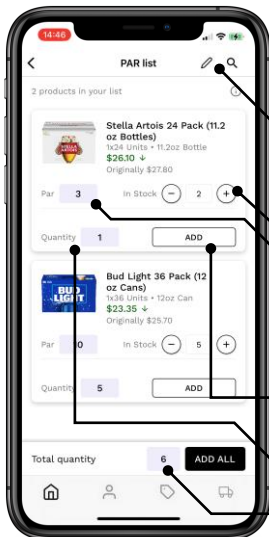

Par List Editing

Set desired inventory level (PAR) and organize or remove products from your list.

Turn your PAR list into a shopping list by turning off “Par Level”
All product details and quantities are saved, if previously entered

Set your desired on hand inventory amount

Make sure to save all changes!

Par List Ordering

Input your on-hand inventory to generate the necessary order quantity to match your desired inventory levels.

Edit your PAR list quantities and products at any time

Indicates current on hand inventory amount

Indicates desired on hand inventory amount

Be sure to click ADD or ADD ALL to update your truck for order placement

Quantity to order to reach the set PAR quantity

Your BEES truck will update automatically as you click ADD

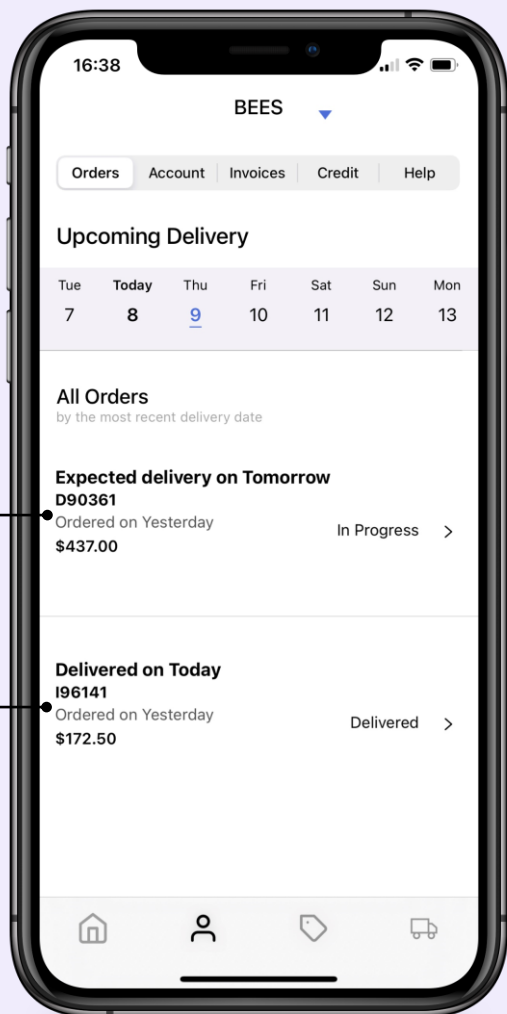

Not seeing a desired item in your PAR List?
On each product detail page, you can add
any products to your PAR List

 Add to PAR list

Manage Your Business

BEES centralizes your past and current orders, as well as invoices, to help you find what you need

Orders

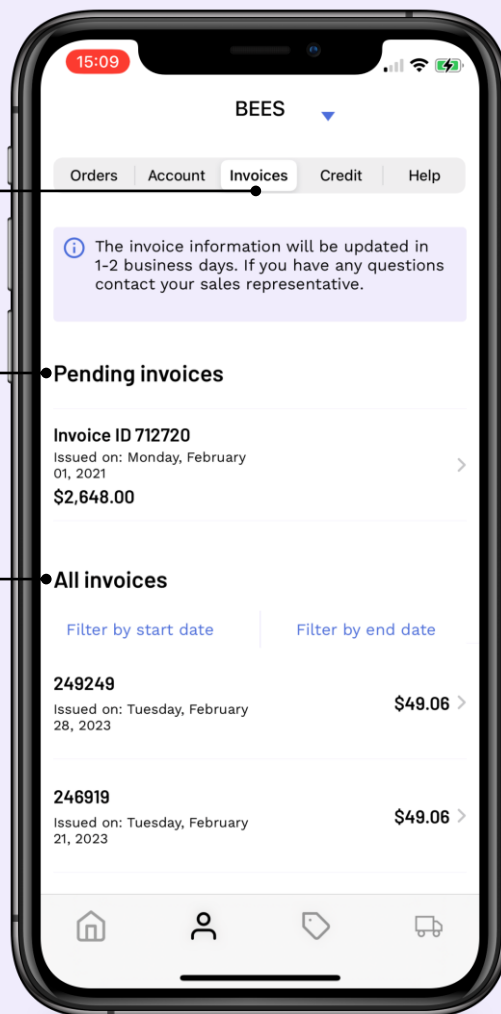

Review all pending orders

- Need to adjust a pending order?
Click into the order, to view if your order is still subject to quantity or delivery date adjustments

Review the order status for all current day orders

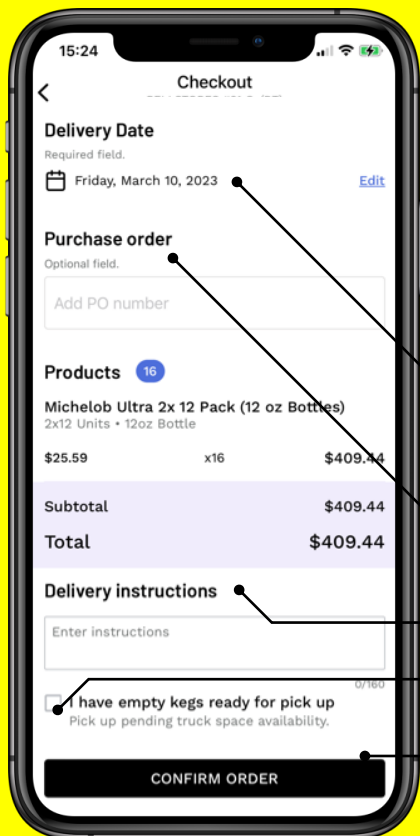

Invoices

All current and past invoices for the last 3 years are available

Easily export an invoice or reorder your products by clicking into any invoice

Order your favorite products

When you're ready to check out, BEES makes it easy to review your purchase, schedule a delivery, and finalize your order

Your next available delivery date will automatically display. Additional delivery dates may be offered by clicking on Edit.

Include any PO# to be referenced with your order

Special instructions can be left for your driver

Note if any empty kegs are needed for pickup

Be sure to finalize your order for delivery. An email confirmation will be sent with a recap of your order details. Make sure your BEES profile has your current email

Frequently Asked Questions

Can I review my previous deliveries in BEES?

Yes, BEES allows you to not only view your previous deliveries but also reorder with a click of the button. Select the ACCOUNT tab and then INVOICES. Your deliveries for the past 3 years will be available for viewing. Simply select an invoice to review products, quantities, and prices on a specific delivery.

To duplicate a previous delivery, click REORDER and the BEES truck will automatically update with the same products and quantities (product availability and prices are subject to change). Feel free to continue to shop or head over to check out and submit your order for delivery.

I placed an order on BEES but when it was delivered a product was missing.

After submitting your order on BEES, it will be sent over to you're your distributor to review, confirm inventory, and ultimately deliver the order to your account. If an adjustment has been made to your BEES order, we encourage to contact your distributor/sales rep to address any questions you may have.

Can I connect another account I manage to the same BEES profile?

Yes, BEES allows you to connect all your accounts to one single profile, making it as easy as possible!

After logging in, click ACCOUNT, then select SETTINGS and you will see the option for "Connect New Account". Enter in the account ID, a recent invoice number, and the zip code for the address. Once completed, click DONE and the additional account will automatically be added to your profile.

Feel free to follow these steps to connect to all your accounts.

How does BEES determine my delivery day option(s)?

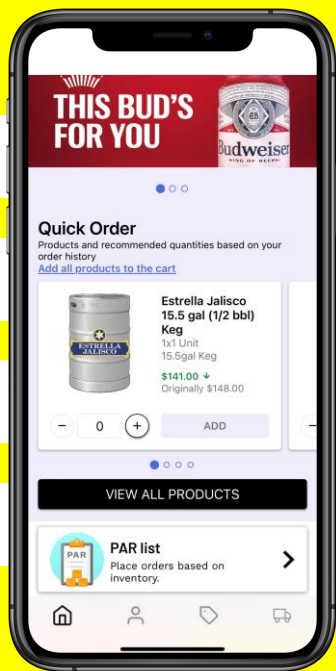

BEES displays the delivery day(s) that are setup by your distributor. If you have any questions or concerns regarding your available delivery date(s) within BEES, we encourage to contact your distributor/sales rep for further assistance.

Can I use the same BEES login on the app and the website?

Absolutely! Once you have created your BEES profile you can login on any device at any time. Feel free to download the "myBEES USA" app or visit us at mybeesapp.com
